

Big Dutchman.

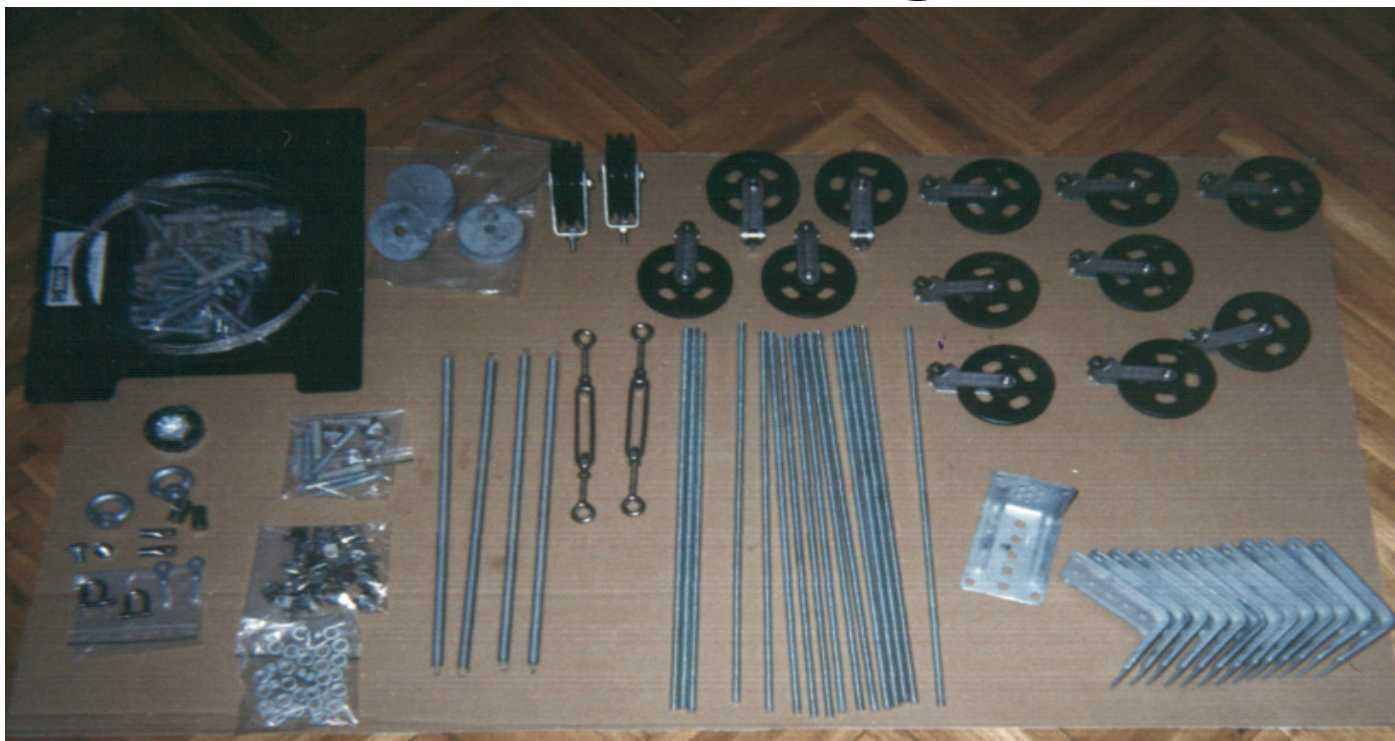

Winch motor **CL 175**

- Adjusting the tensile length by calibration. Coiling the wire rope is no longer necessary -> Easier assembly, less error potential
- No lifting blocks required -> less assembly requirements and more efficient power transmission
- Protection class IP 65 in comparison to IP 54 for CL75 -> Increased tightness avoids dropouts
- Electronic load limiting
- No mechanical potentiometers

Description
Actuator 24V CL-175-100
Actuator 24V CL-175-150
Actuator 24V CL-175-300
Actuator 24V CL-175-600
Actuator 115/230V CL-175-100
Actuator 115/230V CL-175-150
Actuator 115/230V CL-175-300
Actuator 115/230V CL-175-600
